Dear Parents

Year 6 Revision Guides and Workbooks

A number of parents have approached me requesting information about how best to support their child's studies in preparation for the National Curriculum Tests in May. There are various revision guides and workbooks available for parents to purchase to assist their children's preparation. The range of Rising Stars guides are simple to follow and have clear, simple explanations of concepts for children to understand. For those of you who would be interested in purchasing some of these guides, we would be happy to help by ordering them directly from school (but they are also available to purchase direct from Amazon).

It is hoped that your child will spend an additional 15 minutes each weekday working on these to consolidate and reinforce the key concepts of the learning they have done in class. It will also help boost your child's confidence in working independently. We will talk to the children about how best to use the revision guides and workbooks and are happy to answer any queries that you as parents may have. One of the biggest challenges that Year 6 find about secondary school is homework! Getting them into the habit of doing something every night is a really good way of preparing them for this.

I have attached a book order form for you to tick those which you think your child would find useful. Those children who are eligible for Pupil Premium are entitled to have these costs met through this funding. If your child qualifies, please advise the school office when you return your completed form.

Please return the completed form with your payment to the school office by Friday 18th March so that we can collate and place the order.

Yours sincerely

Daniel Taylor

To be returned to the School office by Friday 11th March

	Tick to order	Cost
Rising Stars Achieve Mathematics (Expected) – Maths Revision*		£6
Rising Stars Achieve Mathematics (Expected) – Maths Practice Questions*		£6
